SIPD WebDev Design Contest 2025

Theme: "Protecting the Blue Environment"
BluePhilippines.ph
Open to: **SIPD Students Only (by Pair)**

Objective:

Create a visually appealing and educational website using **pure HTML, CSS, and JavaScript** that promotes awareness and action toward protecting the marine and coastal environment of the Philippines.

Eligibility:

- Open to **Society of Innovators, Programmers, and Designers (SIPD)** members only.

- Must be in **pairs** (2 students per team).

- Each student can join only **one team**.

Theme Interpretation:

Your website should align with the theme **"Protecting the Blue Philippines"** by:

- Highlighting issues affecting Philippine seas and marine biodiversity.

- Promoting conservation and sustainable practices.

- Encouraging youth participation in ocean preservation.

Website Requirements:

Participants must design and submit a static website with the following pages/sections:

1. **Homepage** – with banner, slogan, and navigation

2. **About the Blue Environment** – educational content on Philippine marine issues

3. **News / Updates**

4. **Blue Laws'**

5. **Take Action Page** – ex: pledges, cleanup volunteer form, donations, etc.

Additional Guidelines:

- Use **pure HTML, CSS, and JavaScript** only (no frameworks like Bootstrap, React, etc.)

- The design must be **mobile-responsive**
- Creative use of graphics, layout, and interactive features is encouraged
- All content should be **original** or properly credited (for images and media)
